

March 9, 1976

passed and Senator Rumery made a motion to return to Select for the specific amendment and the Clerk did read that specific amendment on Final Reading. Now, it is back on Select. I think this is the usual procedure, Senator Dickinson. Senator..., do you have a question on this bill?

SENATOR DWORAK: Yes, I have a question of Senator Rumery, if he will yield. As I read the fiscal impact statement on 634 in its original form, it is \$50,000 and your amendment now is increasing that to six hundred and how many thousand? \$674,000.

SENATOR RUMERY: Yes, this is the way it was last year. There have been no changes in this at all. It is just simply bringing the A bill up to correspond with the bill, 634, that was passed this morning. This amendment was put on the appropriation bill, 1004. Then we withdrew that and we want it attached here to the A bill. It just simply makes it possible to do what the main bill authorized anyway.

SENATOR DWORAK: If it took \$674,000 initially, why did we come in with this \$50,000 on this A bill, 634A?

SENATOR RUMERY: It is \$50,000 per year for the leasing bill.

SENATOR DWORAK: Now we are putting the....634 represents what, acquisition cost?

SENATOR RUMERY: Acquisition, remodeling, refurbishing, anything that needs to be done along that line and you will note that it says not to exceed.

SENATOR DWORAK: Are we acquiring this and refurbishing this for a total cost of \$674,000. The plan or the program statement I saw, it didn't reflect those same figures.

SENATOR RUMERY: The figure that you saw first was \$8,000 so that the Department of Administrative Services could proceed but that would be a part of this.

SENATOR DWORAK: Are we saying the total cost of this building, the total cost plus refurbishing is \$674,000?

SENATOR RUMERY: This \$674,000 is the total cost for developing the plan and making the necessary repairs and redecorating.

SENATOR DWORAK: How much is it going to cost to buy the building, then, if this is just refurbishing and what is the cost of the building in excess of this \$674,000?

SENATOR RUMERY: It will be the \$674,000 plus \$500,000 over the ten year period.

SENATOR DWORAK: \$500,000 each year?

SENATOR RUMERY: No, no, \$50,000 each year not to exceed ten years.
